Subject: W.H. Sammis Plant — CCR Alternative Demonstration

Hi Vlad and Archie,

We received another demonstration for a facility located in Stratton, Ohio. On November 18th 2020, EPA received a demonstration from W.H. Sammis Plant for the use of 257.103(f)(1) for North and South Ponds. EPA is currently evaluating the demonstration for completeness. Once EPA completes this review, the facility will be notified that their demonstration is either complete or incomplete.

Feel free to contact Kirsten Hillyer (cc'd) and cc me for any questions you may have.

Thank you,

Jessica Schumacher
